Portfolio

LeetCode

EDUCATION

Bachelor of Technology - Information Technology

2023 – 2027

Indira Gandhi Delhi Technical University for Women (IGDTUW), Delhi

CGPA: 8.7

EXPERIENCE

Research Intern | Scientific Analysis Group (SAG), DRDO

1 June 2026 – 15 July 2026

- Implemented **AES-128 (NIST FIPS-197)** in **Python** and built a **Correlation Power Analysis** attack using vectorized **NumPy**, recovering a full 128-bit key from 10,000 power traces with an exact match.
- Parallelized key recovery across **6 worker processes** with **ProcessPoolExecutor**, cutting runtime to **10.53 seconds**.

Software Development Intern | Techie Place

22 June 2026 – 31 July 2026

- Delivered a live client website rebuild via a **Git branch-based workflow**, handling content restructuring, branding, and location-based features.
- Gained hands-on exposure to **AI-integrated software development** on client projects under senior engineering guidance.

Full Stack Intern | TGIT, BCCL (The Times of India)

2 June 2025 – 31 July 2025

- Engineered responsive frontend interfaces for **Times Health**, an AI-augmented healthcare platform, using **Next.js**, **React.js**, and **Tailwind CSS**, and built **REST APIs** with **FastAPI** and **PostgreSQL**, implementing **AD authentication** and role-based access across patient, doctor, and admin roles.
- Gained exposure to **AWS infrastructure (EC2, S3)** and **CI/CD** via **GitHub Actions**; received stakeholder appreciation.

PROJECTS

WalletMind AI | FastAPI, React Native, ChromaDB, XGBoost, Groq LLM, Tavily

Live GitHub

- Personal finance apps often give generic advice with no grounding in a user's actual spending; built a hybrid retrieval pipeline that combines a user's transaction history with live web data to generate accurate, personalized financial guidance.
- Manual transaction categorization and fraud checks don't scale; automated both by predicting spending categories and flagging anomalous transactions in real time as they occur.

AI Data Storytelling Bot | Python, Hugging Face Transformers, XGBoost, FastAPI, Streamlit

Live GitHub

- Manually analyzing datasets with **10,000+ rows** to extract insights and write reports is slow and resource-intensive; built an automated pipeline that converts raw CSV data directly into narrative summaries and predictive trends.
- Turned this into an interactive tool where users upload a dataset and instantly get human-readable reports, cutting manual analysis time by **5x**.

CampusVista | React.js, Tailwind CSS, Firebase, Leaflet.js, EmailJS

Live GitHub

- Large campuses are hard to navigate for new students and visitors; built an interactive semi-3D campus explorer with real-time route guidance to key locations like academic blocks and hostels.
- Canteen and print-shop orders were handled manually and inconsistently; built a unified ordering system with a vendor-facing dashboard so shops could manage incoming requests in real time.

ACHIEVEMENTS

- Secured **1st Position** in Gemini Genesis (Devcon 2024 Hackathon) among **100+ registered participants**.
- Runner-Up at **Cloudflare x CloudPeace Hackathon 2026** among **200+ teams** (Top 5/15 finalists). Built **ScamLens Bharat** ([link](#)), a multi-modal scam detection platform for **text, images, and URLs** across **multiple languages**.

CERTIFICATIONS

- Computational Problem Solving with Python (NPTEL) July 2025 – Oct 2025
- Machine Learning Internship (Centre of Excellence – AI, IGDTUW) June 2024 – July 2024
- Introduction to Career Skills in Data Analytics – LinkedIn Learning July 2024

SKILLS

Languages: Python, JavaScript, C++, Java, C

Frontend: React.js, React Native, Next.js, Tailwind CSS

Backend: FastAPI, Node.js, Express.js, REST API Design

Databases & Vector Stores: PostgreSQL, MySQL, MongoDB, Firebase, ChromaDB, FAISS

AI/ML: Groq LLM, SentenceTransformers, XGBoost, Scikit-learn, Pandas, NumPy

Cloud & DevOps: AWS (EC2, S3), GitHub Actions, CI/CD, Git, GitHub, Postman

POSITIONS OF RESPONSIBILITY

President, ADTC, IGDTUW

July 2024 – December 2025

- Founded and led a **1.2k+ member women-in-tech community**, organizing web dev mentorships, UI/UX competitions, and DSA challenges.

Technical Head, GeeksForGeeks Chapter, IGDTUW

July 2024 – July 2025

- Led a team of **10 members** to organize technical workshops and develop the official chapter website ([link](#))
